Country: United States

NoIR manufactures certified laser eyewear for all applications. NoIR's GlareShields™ protect against the disabling effects of laser strikes without compromising pilot performance. GlareShields™ optimize protection while allowing visibility of the beam spot (for law enforcement to identify source location) and without significantly reducing visual acuity or display panel color recognition.

HONEYWELL SAFETY PRODUCTS

Honeywell Safety Products is proud to exhibit our patented Laser-Gard® Eyewear. This eyewear significantly reduces the threat posed by powerful green and red lasers and laser pointers, while simultaneously providing the UV and glare protection offered by high quality sunglasses. Please visit us to preview the glasses.
